Introduction

RemotePC Lite is a secure and a simple way to access **file/folders and emails on your computer/laptop via any browser** or using a handheld device like **iPhone**. You can share data/photos with associates and read emails.

Data between your computer and browser is transferred using **SSL encryption**, ensuring that all communication is secure.

System Requirements

For RemotePC Lite Host

- Windows XP/Vista/ 2003 Server
- Stable Internet connection

For RemotePC Lite web interface

- Any web browser

Features

Via any browser, you can:

- Read MS Outlook/Outlook Express emails on the remote computer
- Upload files to your remote computer
- Download folder from the remote computer
- Create share links to allow your associates and friends to view data enabled for remote access
- View thumbnails of images (.bmp, .gif, .jpeg)

Note: Remote computer implies the PC/laptop on which the RemotePC Lite Host application is running.

Installing the RemotePC Lite application

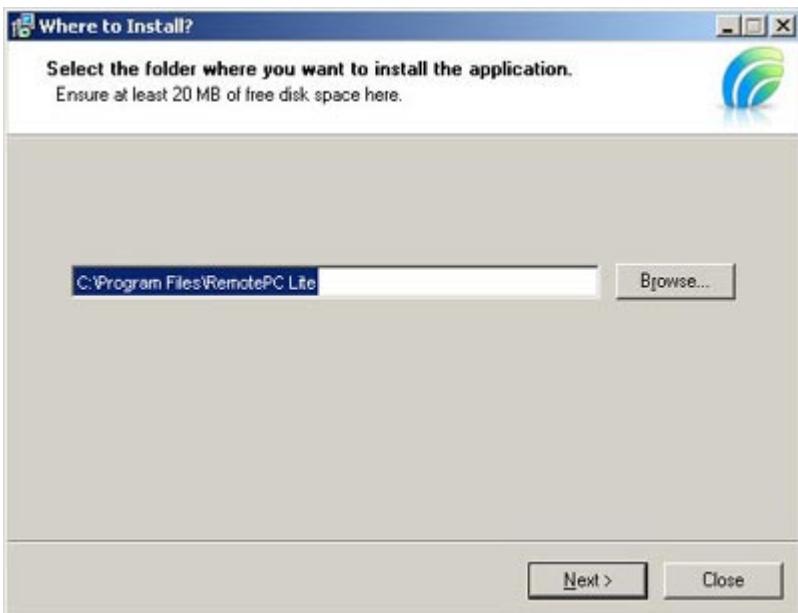

1. Download and Install the RemotePC Lite application from <http://www.remotePC.com/lite.htm>.
2. Double-click to run the setup file.
3. The 'Install RemotePC Lite' screen is displayed. Click the 'Next' button.

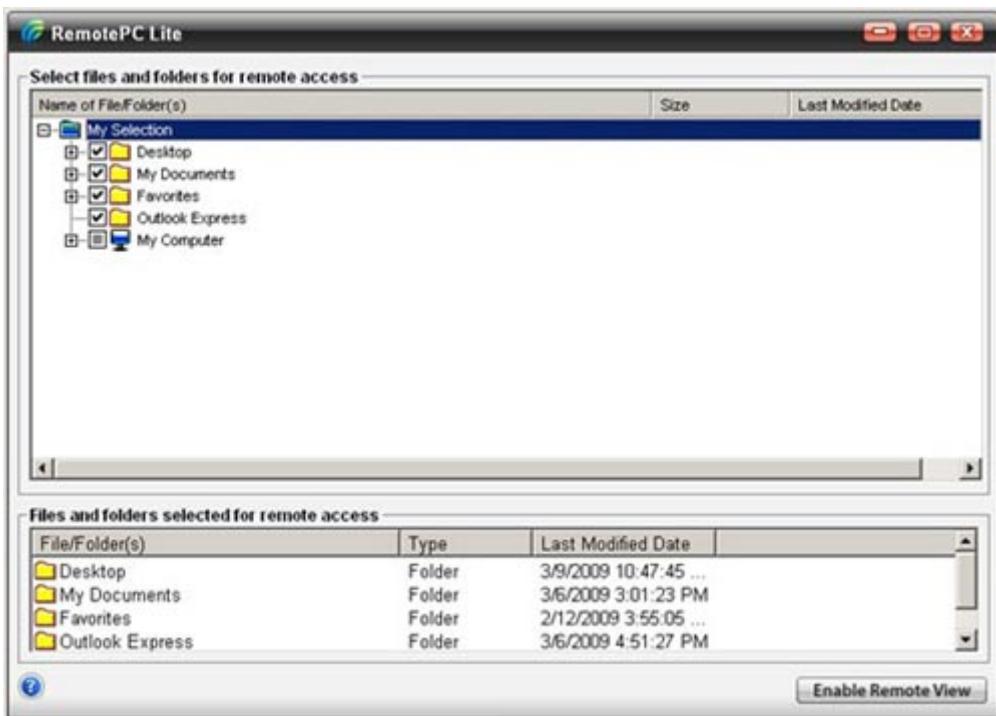

4. The 'License Agreement' window is displayed. Click the 'I Agree' button to proceed.

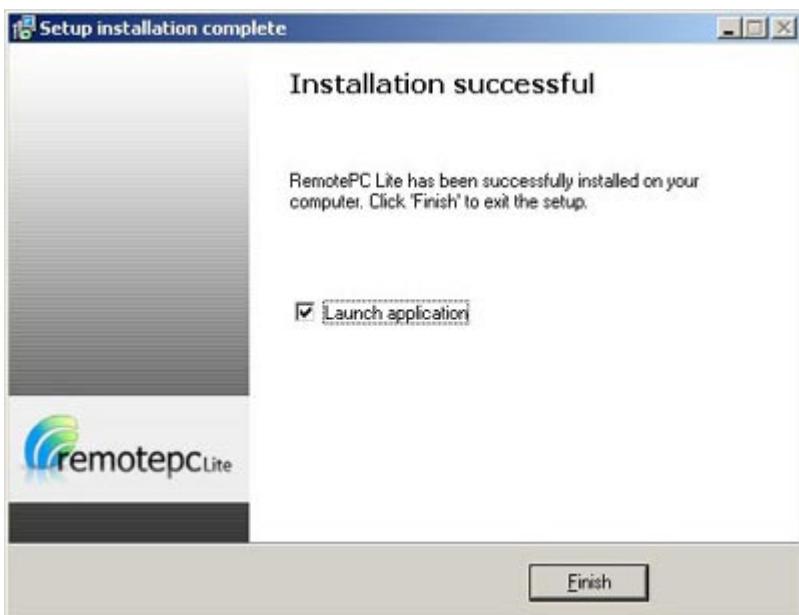

5. The 'Where to Install' screen is displayed. 'Browse' to select the destination folder to which you want to install the application and click the 'Next' button.

6. The RemotePC Lite Explorer screen that is displayed. By default 'Desktop', 'My Documents', 'Favorites', 'Outlook Express' and 'Microsoft Outlook' are enabled for remote view. You may modify the selection.

7. The 'Installation successful' screen is displayed. Click the 'Finish' button to complete the installation.

[Login to RemotePC Lite](#)

Login to the RemotePC Lite application to enable remote access for your data and emails.

The Login window has the following fields/options:

Username or Email address: Enter the 'Username' or 'Email address' provided while registering for your RemotePC Lite account. In case there are multiple accounts associated with the email address, choose the appropriate Username to login to your account.

Password: Provide the Password used to sign up for your account.

Remember Username/Email address and Password: Saves the 'Username' and 'Password'. This option is selected by default, and can be changed.

Login: Logs you into RemotePC Lite application.

Close: Closes the login window.

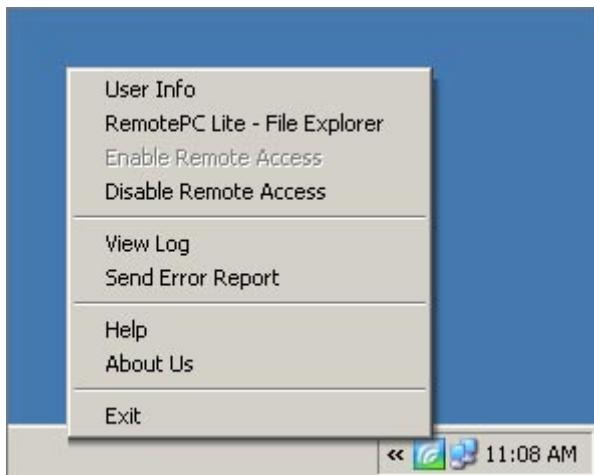

New user sign up: Lets you sign-up for an account from the website.

Forgot password: Your password is mailed to the email address provided during registration.

Working with RemotePC Lite

RemotePC Lite Host tray menu

The RemotePC Lite Host tray menu has the following options:

User Info

Displays the login window from where you can update your Username and Password.

RemotePC Lite File Explorer

Opens the 'RemotePC Lite' main screen from where you can enable data for remote view.

Enable Remote Access/Disable Remote Access

Enables or disables remote access of your data.

View Log

Displays the logs of tasks done at the Host (remote computer) end.

Send Error Report

Opens the 'Report Feedback' screen from where you can email your query/suggestions to our technical support team.

Help

Opens the RemotePC Lite Help Guide that takes you step-by step through the application.

About Us

Displays the RemotePC Lite Host version number and the copyright information.

Exit

Lets you disconnect and exit the application.

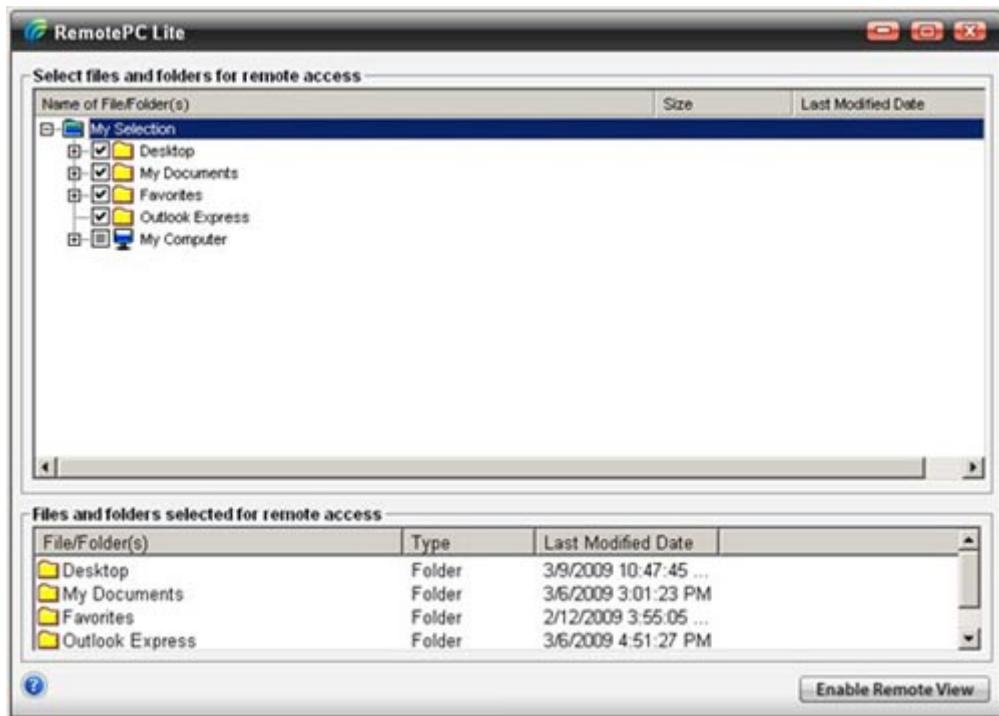

Enable Remote Access

To view and share data on the remote computer (where the RemotePC Lite Host is running) via a browser or using a handheld device like iPhone, the files/folders/drives need to be enabled for remote view.

Steps:

1. On the RemotePC Lite Host tray menu, select the 'RemotePC Lite - File Explorer' option.
2. The 'RemotePC Lite' screen is displayed. Select the files/folders/drives that you wish to enable for remote view.

The data enabled for remote access is displayed on the lower pane (under 'Files and folders selected for remote access'). By default, 'Desktop', 'My Documents', 'Favorites', 'Microsoft Outlook', 'Outlook Express' are enabled for remote view.

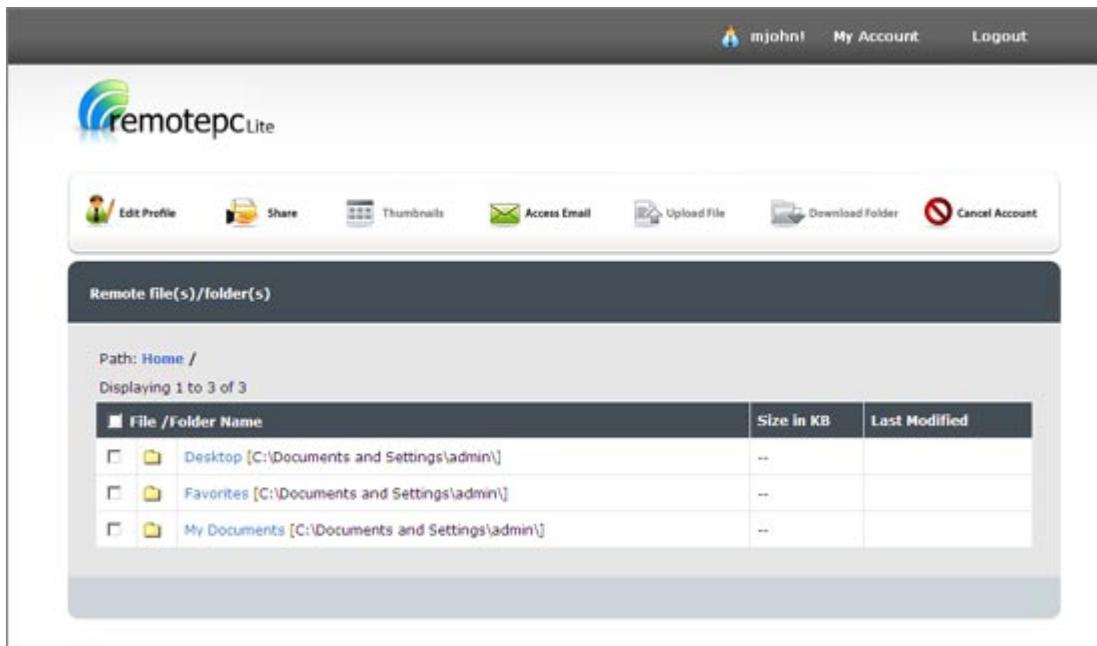

Access data enabled for remote view via browser

Access data enabled for remote view

You can access data and emails enabled for remote view via any browser.

Steps:

1. Login from the website with your RemotePC Lite Username and Password at <http://www.remotePC.com/>.
2. Files/folders and images enabled for remote view are displayed. You can share data and images, read emails, upload files to your remote computer and download folders to your local computer.

The screenshot shows the remotePC Lite web interface. At the top, there is a dark header bar with the 'remotePC Lite' logo, a user profile icon (mjohn1), 'My Account', and a 'Logout' link. Below the header is a navigation bar with links: 'Edit Profile', 'Share', 'Thumbnails', 'Access Email', 'Upload File', 'Download Folder', and 'Cancel Account'. The main content area has a dark header 'Remote file(s)/folder(s)'. Below it, the 'Path: Home /' and 'Displaying 1 to 3 of 3' are shown. A table lists three items:

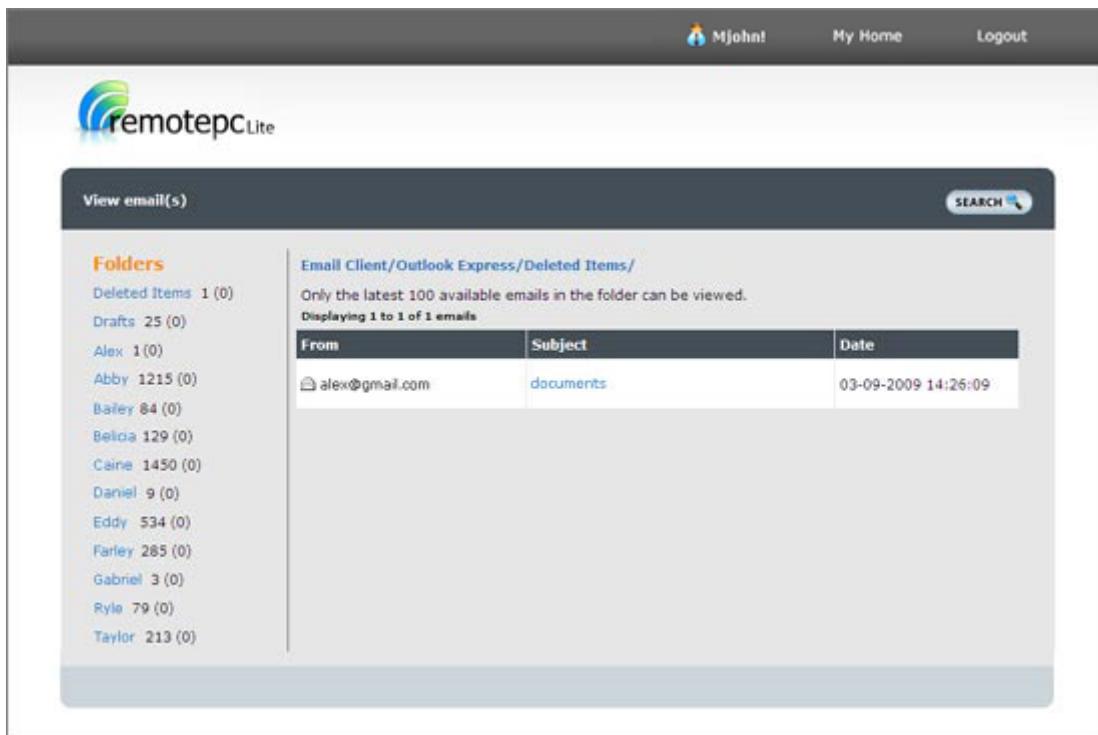

File /Folder Name	Size in KB	Last Modified
Desktop [C:\Documents and Settings\admin\]	--	
Favorites [C:\Documents and Settings\admin\]	--	
My Documents [C:\Documents and Settings\admin\]	--	

Access Email

You can view the latest 100 emails that you have received on MS Outlook or Outlook Express, if the email folders have been enabled for remote access.

Steps:

1. Login from the website with your RemotePC Lite Username and Password at <http://www.remotePC.com/>.
2. Click the 'Access emails' icon.
3. Select your email client to view the messages on the remote computer.
4. Your mailbox with all the folders are displayed. You can locate emails within a folder based on the 'subject' or 'from' criteria.

The screenshot shows the 'View email(s)' page of the remotePC Lite web interface. At the top, there is a navigation bar with a user icon, the name 'Mjehn!', a 'My Home' link, and a 'Logout' link. Below the navigation bar, the remotePC Lite logo is displayed. The main content area is divided into two sections: a left sidebar and a right main panel.

Left Sidebar (Folders):

- Deleted Items 1 (0)
- Drafts 25 (0)
- Alex 1 (0)
- Abby 1215 (0)
- Bailey 84 (0)
- Belia 129 (0)
- Caine 1450 (0)
- Daniel 9 (0)
- Eddy 534 (0)
- Farley 285 (0)
- Gabriel 3 (0)
- Ryle 79 (0)
- Taylor 213 (0)

Right Main Panel:

Email Client/Outlook Express/Deleted Items/
Only the latest 100 available emails in the folder can be viewed.
Displaying 1 to 1 of 1 emails

3. Provide the email address of your associate. Click the 'Address book' link to import the email addresses

Share Folder(s)/File(s)

Provide valid email address(es) of the recipient(s). Use a comma to separate email addresses.

To: christie@gmail.com

Cc: robert@yahoo.com

Subject: RemotePC Lite - File - Folder Share

Add additional information here

This is an email sent from RemotePC Lite on behalf of the sender. It may contain links to the file(s)/folder(s) that the sender chose to share with you.

Below are the links:

File/Folder Name : Desktop

Send Reset

4. Click the 'Send' button to share the link.

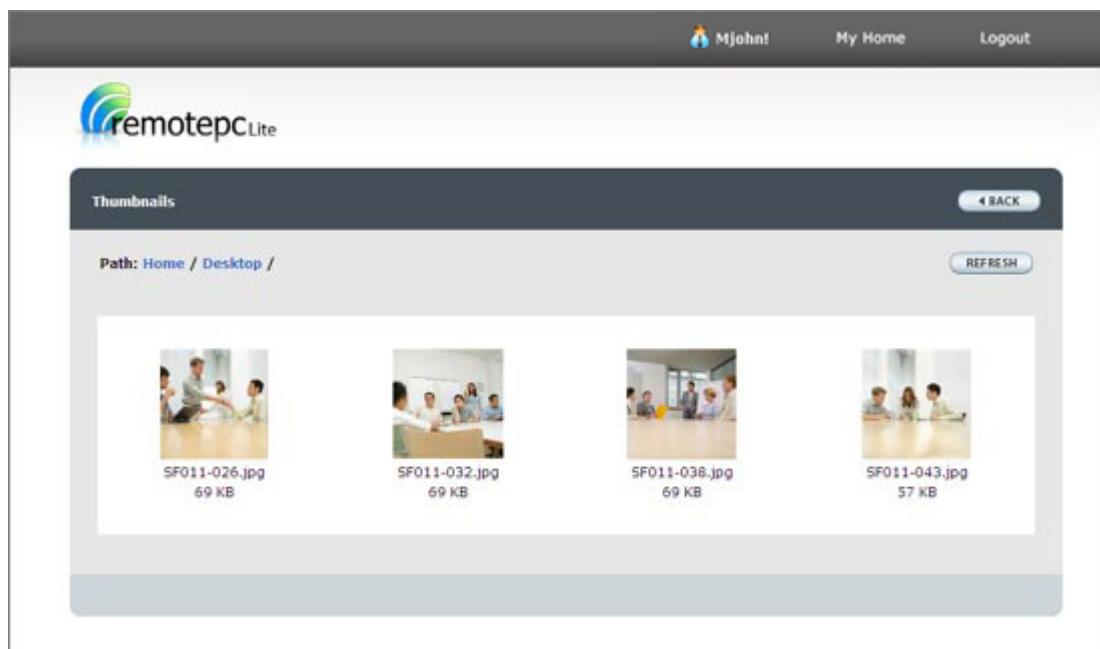

Your associate needs to click the share link. He is taken to the web interface, where he can see the shared resources.

Thumbnails

You can view your .gif, .jpg, .bmp images on the remote computer (where the RemotePC Lite Host application is running) as thumbnails.

Steps:

1. Login from the website with your RemotePC Lite Username and Password at <http://www.remotePC.com/>.
2. Click the 'Thumbnail' icon for a preview.

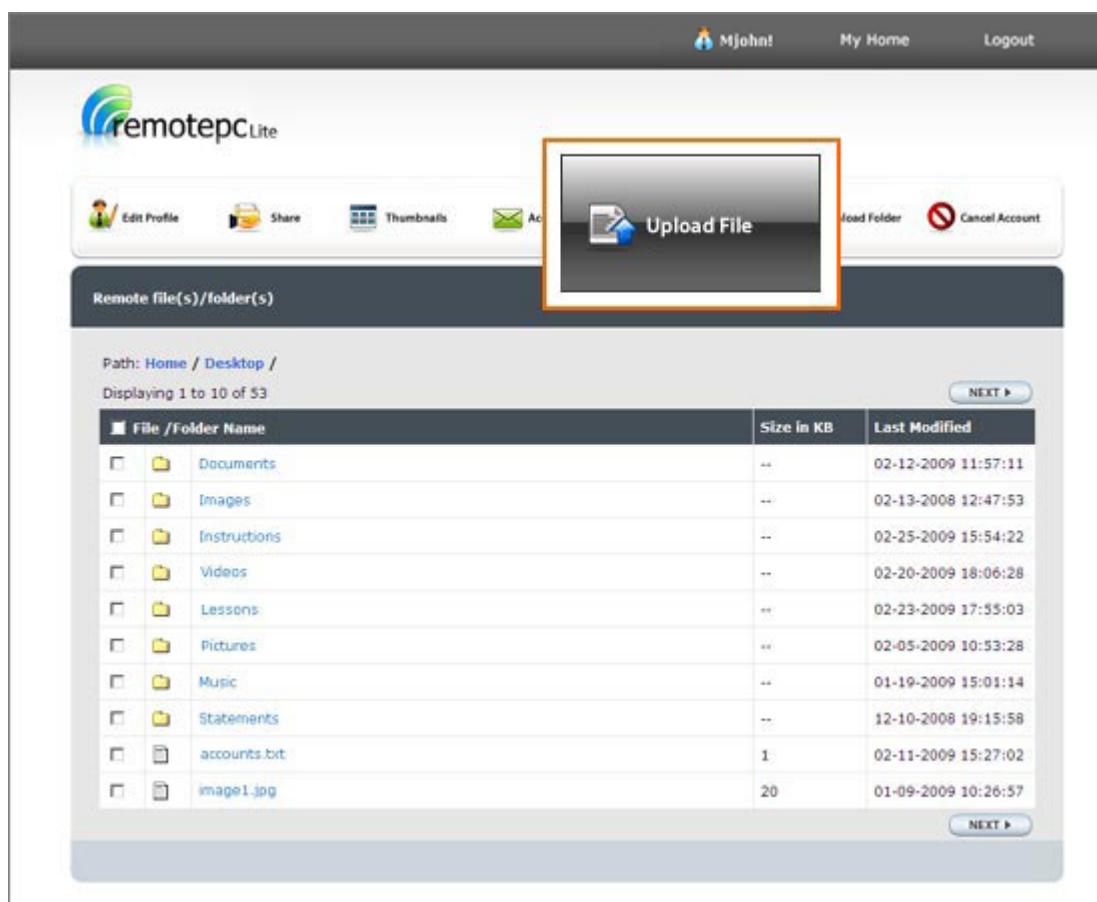

Upload Files

You can upload files to your remote computer (where the RemotePC Lite Host application is running), via the web interface.

Steps:

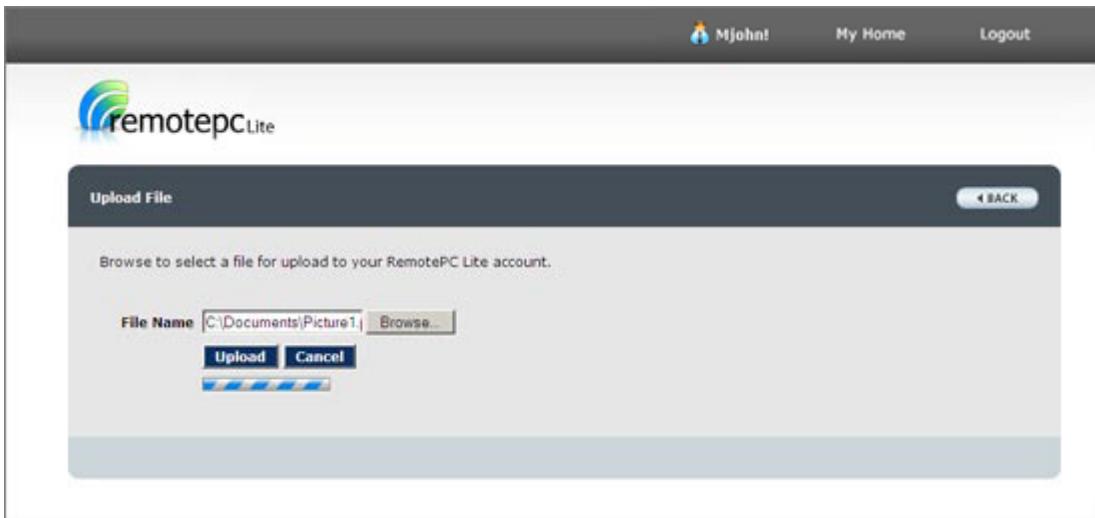

1. Login from the website with your RemotePC Lite Username and Password at <http://www.remotePC.com/>
2. Click the 'Upload File' icon.

The screenshot shows the RemotePC Lite web interface. At the top, there is a navigation bar with a user profile icon (Mjohn!), 'My Home', and 'Logout'. Below the navigation bar, there is a toolbar with icons for 'Edit Profile', 'Share', 'Thumbnails', 'Add', 'Upload Folder', and 'Cancel Account'. The main content area has a title 'Remote file(s)/folder(s)' and a breadcrumb path 'Path: Home / Desktop /'. It displays a list of files and folders with columns for 'File /Folder Name', 'Size in KB', and 'Last Modified'. The 'Upload File' button is highlighted with a red box. The table data is as follows:

File /Folder Name	Size in KB	Last Modified
Documents	--	02-12-2009 11:57:11
Images	--	02-13-2008 12:47:53
Instructions	--	02-25-2009 15:54:22

3. Browse to select the file that you wish to upload to your remote computer.

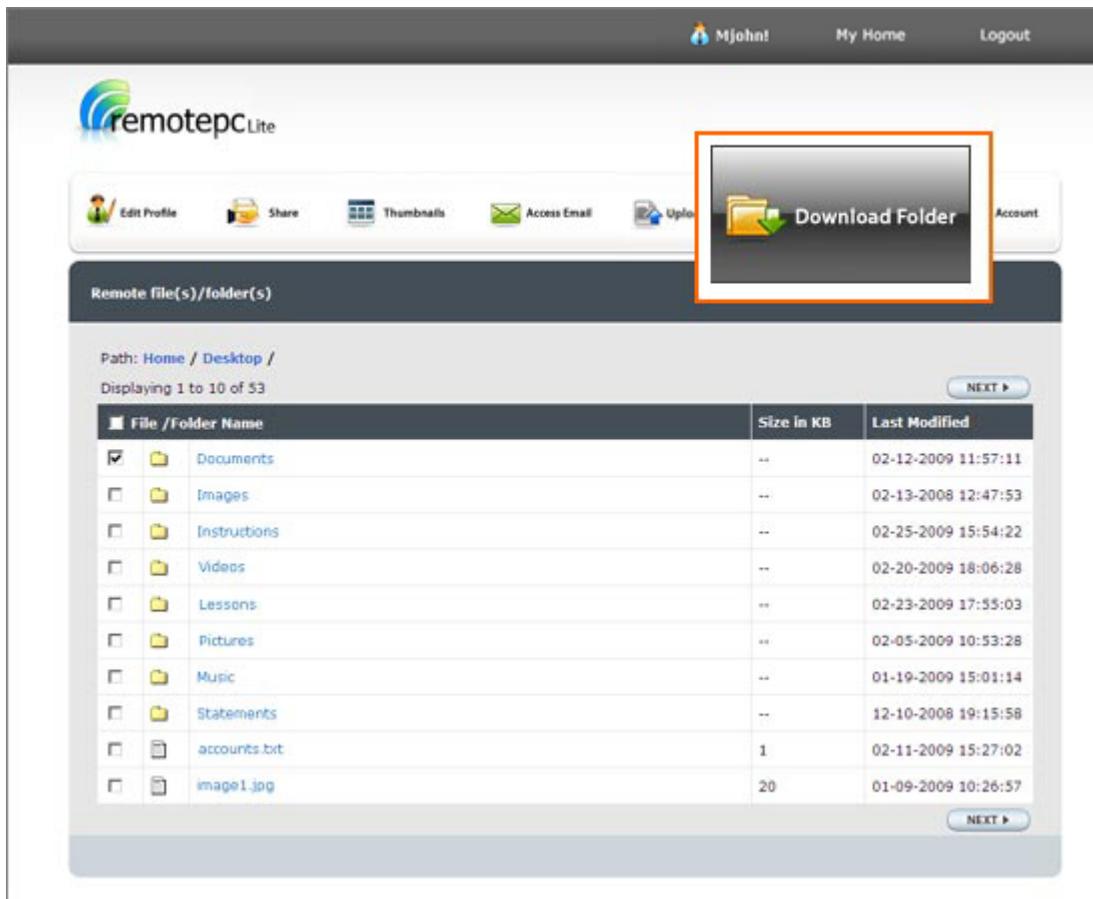

4. Click the 'Upload' button. The file is uploaded to your remote computer.

Download Folder

You can download any folder enabled for remote access to your local computer.

Steps:

1. Login from the website with your RemotePC Lite Username and Password at <http://www.remotePC.com/>.
2. Browse to the folder that you wish to download and click the 'Download Folder' icon. Your folder is downloaded as a zip file.

The screenshot shows the 'remotePC Lite' web interface. At the top, there is a navigation bar with 'Mjohn!' (user icon), 'My Home', and 'Logout' buttons. Below the navigation bar, there is a toolbar with icons for 'Edit Profile', 'Share', 'Thumbnails', 'Access Email', and 'Upload'. A 'Account' button is also present. The main content area is titled 'Remote file(s)/folder(s)' and shows a list of files and folders. The path is 'Home / Desktop /'. It displays 1 to 10 of 53 files. A table lists the files with columns for 'File /Folder Name', 'Size in KB', and 'Last Modified'. The 'Download Folder' button, which is a button with a folder icon and a green arrow pointing down, is highlighted with an orange box. There are 'NEXT ▶' buttons at the bottom of the table.

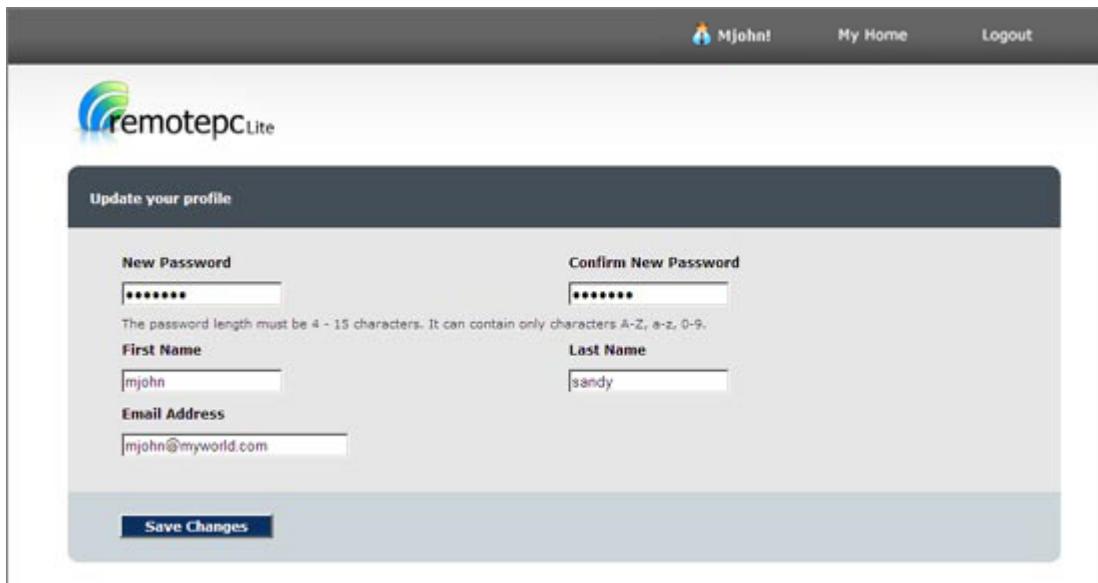

File /Folder Name	Size in KB	Last Modified

Edit Profile

You can edit your Password and Email address from the web interface.

Steps:

1. Login from the website with your RemotePC Lite Username and Password at <http://www.remoteplc.com/>.
2. Click the 'Edit Profile' icon.
3. Modify your Password/Email address.

The screenshot shows the 'Update your profile' page. At the top, there is a navigation bar with a user icon labeled 'Mjohn!', a 'My Home' link, and a 'Logout' link. The main content area has a dark header bar with the 'remotePC Lite' logo. Below this, the form fields are arranged in two columns. The left column contains 'New Password' and 'First Name' fields. The right column contains 'Confirm New Password' and 'Last Name' fields. Below the 'First Name' field is a note: 'The password length must be 4 - 15 characters. It can contain only characters A-Z, a-z, 0-9.' The 'Email Address' field contains 'mjohn@myworld.com'. At the bottom of the form is a 'Save Changes' button.

Access data enabled for remote view via iPhone

View data enabled for remote access

You can access data and emails enabled for remote view via your iPhone.

Steps:

1. On your iPhone, login to your account at <http://www.remotePC.com/> with your RemotePC Lite Username and Password.
2. Files/folders and images enabled for remote view are displayed. You can share data and images and read emails.

Email

You can read the last 100 emails that you have received on MS Outlook or Outlook Express, if the email folders have been enabled for remote access.

Steps:

1. On your iPhone, login to your account at <http://www.remotePC.com/> with your RemotePC Lite Username and Password.
2. Click the 'Emails' icon.
3. Select your email client to view the messages on the remote computer.
4. Your mailbox with all the folders is displayed. You can locate emails within a folder based on the 'subject' or 'from' criteria.

Share

You can create share links from your iPhone to provide access to data on your remote computer to your associates and friends.

Steps:

1. On your iPhone, login to your account at <http://www.remotePC.com/> with your RemotePC Lite Username and Password.
2. Select the file that you want to share and click the 'Share' icon.
3. Provide the email address of your associate.

Thumbnails

You can view your .gif, .jpg, .bmp images (present on the remote computer) on your iPhone as thumbnails.

Steps:

1. On your iPhone, login to your account at <http://www.remotePC.com/> with your RemotePC Lite Username and Password.
2. Click the 'Thumbnail' icon for a preview.
